PERSONAL PROFILE

Innovative Computer Science student with a strong foundation in UI/UX design, database development, and cybersecurity. Experienced in building decentralized applications, AI-driven recommendation systems, and secure network architectures. Passionate about creating functional, user-centric systems that bridge the gap between complex backend logic and intuitive frontend design.

PROJECTS

Web Designer Intern 2026
NSJ Technologies Inc. (New San Jose Builders, Inc)
- Conducted a UX/QA audit of the existing NSJBI website, identifying navigation, branding, and usability gaps that directly shaped the requirements for the site redesign.
- Redesigned the NSJBI corporate website in Figma, benchmarking against competitor sites to modernize the UI and improve overall user experience.
- Collaborated with developers to implement approved designs, incorporating 40th Anniversary branding and new CMS features (Super Admin, Audit Logs).
- Presented design progress and QA findings to the Marketing Department, VP for Operations, VP for IT, and company executives, securing approval to proceed at each project milestone.

Frontend Developer 03/2026 – Present
SentiNet | Decentralized Intrusion Detection & Prevention System, PUP
- Designed a decentralized, endpoint-based IDPS architecture to actively defend against public Wi-Fi security threats.
- Built a multi-tiered defense pipeline incorporating behavioral machine learning and a permissioned blockchain layer.
- Designed and implemented responsive administrative and agent web dashboards using React and Tailwind CSS.
- Built a payload-blind packet monitoring framework strictly complying with the Data Privacy Act of 2012.

UI/UX Designer 2026
Chef MAI Mini CHEF AI, PUP
- Designed and built the user interface for an AI-driven recipe matching web application using Figma and VS Code.
- Built interactive user flows tracking ingredient cataloging via text inputs and camera-based image capture.
- Designed clean interface layouts displaying recipe outputs, constraints, difficulties, and dynamic substitutes.

UI/UX Designer 2026
Camarines Norte Tourism Guide & Booking Portal, PUP
- Designed comprehensive user interface layouts, wireframes, and responsive screen mockups in Figma.
- Designed structured, visual component cards highlighting regional food heritage, annual festivals, and tourist spots.
- Designed clear user navigational flows for registration, custom trip planning, and mock booking forms.

LumenID Polkadot Solidity Hackathon 2026
Decentralized Identity & Verifiable Credential Platform
- Designed the UI/UX architecture, wallet interfaces, and dashboard layouts for a decentralized identity network.
- Built accessible frontend disclosure interaction loops utilizing secure, time-bounded QR codes and links.

2nd Place Cash Catalyst (Mini Hackathon) 2024
Gamified Finance Tracker, PUP
- Designed UI screen layouts, prototypes, and structured graphical assets inside Figma for an intuitive user experience.
- Built the native graphic interface using JavaFX Scene Builder to guarantee smooth runtime deployment.

SKILLS

Programming & Scripting
Java, JavaFX, C, Python, JavaScript, TypeScript, PHP, HTML/CSS, SQL, JSON.

Tools & Platforms
Git, GitHub, Figma, React, Tailwind CSS, Canva, Adobe Photoshop.

Cybersecurity & Networking
Intrusion Detection & Prevention Systems (IDPS), Scapy Packet Analysis, Network Simulation (Cisco Packet Tracer), Security Protocol Implementation, Data Privacy Compliance.

Web3 & Blockchain
Decentralized Identity (DID), Verifiable Credentials (VC), IPFS, MultiChain, Smart Contract Integration

Database & Backend
MySQL, SQLite, Data Modeling, ERD, Normalization, Python Flask.

Soft Skills
UI/UX Design, Team Collaboration, Public Speaking, Problem-Solving

AI & Machine Learning
Bayesian Learning, Naive Bayes Classification, Random Forest Classifier, Feature Engineering, Image Recognition Integration.

CERTIFICATIONS

Fortinet Certified Associate - Cybersecurity
- Date: 2025-2027
- Credential ID: d5999a1f-43cd-40ca-9d25-a8c144e90c3d

Science and Technology Track Certificate - US ASEAN and Arizona State University
Date: 2025

Machine Learning, Artificial Intelligence (AI), and Cybersecurity Badge
- Date: 2025
- Badge ID: lhX4P6wRRQyV-D-sERUMXw

EDUCATION

Bachelor of Science in Computer Science 2023 – Present
Polytechnic University of the Philippines

CURRRENT CLUBS AND ORGANIZATIONS

JBECP PUP Manila 2025
Media Head

Association of Students for Computer Intelligence Integration (ASCII) 2025
DOCUMENTATION AND SECRETARIAT

Google Developer Groups On Campus PUP (GDG) 2025
Operations Committee
DATA CAMP SCHOLAR

AWS Cloud Club PUP 2023
Cyber Security Member
